

EXHIBITOR PROSPECTUS

Maryland
Orthopaedic
Association

2026 Annual Meeting
February 28, 2026
Hilton BWI Baltimore
Linthicum Heights, MD

YOU'RE INVITED!

On Saturday, February 28, 2026, the Maryland Orthopaedic Association will hold its Annual Scientific Meeting in Linthicum Heights, MD. This is our most ambitious meeting of the year, and features presentations and symposia on issues of current interest to practicing orthopaedists, as well as the presentation of twelve juried scientific papers by residents and fellows.

We invite you to participate in the upcoming Scientific Meeting as an Exhibitor. The major orthopaedic hospitals in Maryland support the Annual Meeting and it draws a mix of academic and private practice doctors with whom to interact. We are sure that your company will want to reflect its commitment to orthopaedics in Maryland. Please register as soon as possible; space is limited.

Benefits of Exhibiting

- Access to orthopaedic surgeons in Maryland from all practice settings
- Your company's listing in the mobile meeting guide, along with your company description and website
- Recognition on meeting signage and on the MOA website
- Participation in the exhibit hall prize drawing game to encourage attendees to stop by your exhibit
- A final attendee list after the meeting

Prize Drawing

Exhibitors will be included in a prize give-away game to increase traffic to your exhibit booth. Attendees will be given a card for exhibitors to punch next to their company name during exhibit hours. Participants will be entered into a prize drawing, which will take place in the exhibit hall. Participants must be present to win.

Target Audience

This program is intended for general orthopaedic surgeons. We anticipate over 120 attendees at the MOA Annual Meeting.

MOA Annual Meeting Program

The 2026 Maryland Orthopaedic Association Annual Meeting brings together renowned experts to provide subspecialty and clinical updates to the practicing general orthopaedic surgeon and academic clinician, including current concepts in sports medicine, joint replacement surgery, shoulder and elbow surgery, hand surgery, foot and ankle surgery, pediatric orthopaedics, and orthopaedic trauma. The meeting will provide an update on treatment options and the latest surgical techniques for treating common orthopaedic conditions.
